

Online Manuscript Submission and Tracking System

The Journal Management System (JMS) is a web-based manuscript submission and tracking system developed by Bentham Science Publishers for efficient, fast and cost effective processing of submitted manuscripts. JMS has been designed with the objective to ensure step-by-step online processing and tracking of manuscripts for authors, editors and the publisher; from submission to acceptance and final reproduction.

JMS is a user friendly system that can be conveniently operated. The system allows rapid and easy submission of original and revised manuscripts and indicates their status throughout the submission process.

Authors accessing the system for the first time will be required to Register themselves online at <http://bsp-cms.eurekaselect.com/> and create a JMS account to submit a paper to a particular journal from the available drop down menu in the registration form.

Once registered, authors will not be required to REGISTER again. They may submit another manuscript to any Bentham Science journal using the same USER ID and PASSWORD.

Each manuscript submission will be followed by a confirmation email to the corresponding author. Authors can log onto JMS at any time to view the status of their manuscripts. The system will notify the corresponding author by e-mail once a decision has been made on the peer-reviewed manuscript.

Getting Started

- Log on to JMS at <http://bsp-cms.eurekaselect.com/>, Register yourself as an Author for “*Protein & Peptide Letters*” from the list of journal titles.
- You will receive an email confirmation from JMS.
- You can submit the ABSTRACT or complete MANUSCRIPT after completing the registration form.
- After receiving confirmation, log onto JMS using USER ID and PASSWORD.
- You are advised to upload your files as MS Word, PDF or a single Zip folder.
- Authors are required to provide names and complete information of two suggested reviewers when submitting an Abstract or complete MANUSCRIPT.

Peer-Reviewing and Editorial Decision:

- Editors will receive an email alert for a new submission and will assign reviewers for the manuscript.
- The reviewers will receive a notification email requesting for peer-reviewing of the assigned manuscript.
- Interested reviewers will submit their comments online. Alternatively, they may decline the activity online.
- Authors will receive a peer-reviewing completion notification with editorial decision by email.

- The authors may retrieve the reviewers comments from JMS.
- Revised manuscripts must be submitted along with a rebuttal letter.
- Manuscripts will be subjected to final reviewing by the Reviewers/Editors and an editorial decision will be duly conveyed to the authors regarding their submitted work.

Online Paper Tracking

- Authors may track all the stages of publication online until their manuscript is finalized and is ready for publication.
- Log onto JMS and click “the article title from the available list of your submitted manuscripts to view the detailed status at every stage of peer-review and editorial decision.
