Editor-in-Chief, Cancer Biology and Therapy

<http://www.landesbioscience.com/journals/cbt/>

### **Aims and Scope:**

The authors of each review will focus on a specific tumor type and will review recent knowledge about molecular pathogenesis in general and especially as it impacts response to therapy. Whenever possible, authors will review the clinical trials that have established the clinical genetic testing. It is expected that this information will help inform further clinical trial development.

The scope of the special issue includes but is not limited to,

- Breast cancer
- Head and Neck cancer
- Lung cancer
- Colorectal cancer
- Melanoma
- Kidney cancer
- Brain cancer
- Esophageal cancer
- Liver cancer
- Leukemia
- Lymphoma
- Myeloma

**Number of articles:** 20 or less.
