

Tentative Outline

Special Thematic Issue for Endocrine, Metabolic & Immune Disorders - Drug Targets

Title of thematic issue: *MicroRNAs in colon and rectal cancer*

Guest Editors: Dr. Surajit Pathak, M.Sc, Ph.D. and Dr. Antara Banerjee,

Faculty of Allied Health Sciences,

Chettinad Hospital & Research Institute (CHRI),

Chettinad Academy of Research and Education (CARE),

Kelambakkam, Chennai-603103, India

Aims & Scope: Recently, the discovery of microRNAs (miRNAs) has revolutionized the molecular cancer biology, and several miRNAs have emerged to have a great potential as future non-invasive cancer diagnostic, prognostic, and predictive biomarkers. We cordially invite and encourage authors to submit the Review/original research articles as well as the short communication that will help in understanding the miRNAs in field of colon and rectal cancer biology.

Keywords: miRNAs, rectum, colon, cancer, biomarker, noninvasive.

Subtopics:

- Role of inflammation in development of colorectal cancer.
- New approaches for prevention and therapy of inflammation associated colon and rectal cancer.
- Recent advances in basic and translational research to understand the contribution of different signaling pathways to CRC.
- MicroRNAs as biomarkers of colon and rectal cancer
- Regulation of miRNAs in inflammation associated colorectal cancer: a mechanistic approach.
- Role on the regulation of the molecular mediators targeting miRNAs and pathways that link inflammation to colon and rectal cancer.

Schedule:

- ◇ Manuscript submission deadline: 15/09/2019
- ◇ Peer Review Due: 15/11/2019
- ◇ Revision Due: 18/12/2019
- ◇ Announcement of acceptance by the Guest Editors: 05/01/2020
- ◇ Final manuscripts due: 2/2/2020
