Special Issue

“Emerging Topics in Zoonotic and Vector-Borne Diseases”

Recent Patents on Anti-Infective Drug Discovery

Indexed on PubMed/Medline, Scopus (Q2 Drug Discovery, Q2 Infectious Diseases, Q2 Pharmacology), EMBASE, METADEX, CAB Abstracts, Cambridge Scientific Abstracts (CSA), Chemical Abstracts, Genamics JournalSeek, MediaFinder®-Standard Periodical Directory, PubsHub, J-Gate.

Guest Editor: Alfonso J. Rodriguez-Morales

MD, MSc, DTM&H, FRSTM&H(Lon), FFTM RCPS(Glasg), PhD(c).

Co-Chair, Working Group on Zoonoses, International Society for Chemotherapy.

Member, Committee on Zoonoses and Haemorrhagic Fevers, Colombian Association for Infectious Diseases.

Public Health and Infection Research Group, Faculty of Health Sciences, Universidad Tecnológica de Pereira, Pereira, Risaralda, Colombia.

Aims and scope:

To describe new advances in emerging zoonotic and vector-borne diseases, with emphasis on the impact of their changing epidemiology, globalization, new diagnostic techniques, manifestations and particularly development of new chemotherapeutic options for their management.

This issue is focused on review papers on those topics. The best 15 manuscripts will be published in the issue. There is no publication cost levied to authors for the publication of their review papers except for color graphics, reprints and open access (optional).

Schedule:

Deadline for Submission: November 30, 2014.

Peer Reviewing: Up to January 30, 2015.

Publication: February-March 2015.
