Aims & Scope

Current Alternative Energy, a peer reviewed journal publishes full-length/mini reviews, original research articles and thematic issues on experimental and applied research on alternative energy sources. The scope covers sustainable and alternative energy sources e.g. solar, wind and wave energy, geothermal, photovoltaics, biofuels. Coverage also includes enabling technologies for renewable energy and energy efficiency studies including energy engineering, new developments in energy devices, energy policy and investment.

This inter-disciplinary journal will be of particular interest to environmental scientists and others in related disciplines.
