ISSN: 1389-2037 (Print)  
ISSN: 1875-5550 (Online)

## Aims & Scope

**Current Protein & Peptide Science** publishes full-length/mini-review articles on specific aspects involving proteins, peptides, and interactions between the enzymes; the binding interactions of hormones and their receptors; the properties of transcription factors and other molecules that regulate gene expression; the reactions leading to the immune response; the process of signal transduction; the structure and function of proteins involved in the cytoskeleton and molecular motors; the properties of membrane channels and transporters; and the generation and storage of metabolic energy. In addition, reviews of experimental studies on protein folding and design are given special emphasis. Manuscripts
